Features

- Push Alarm, Playback, Task wheel
- Finger Gesture, Windows Slide, PTZ&EPTZ, Bidirectional Talk and etc.
- Support multi-language (Chinese, English, Spanish, Portuguese, French, Polish, German, Japanese, Italian, Russian and etc.)

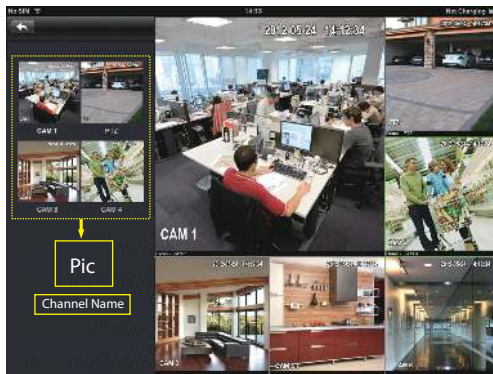

Who says only practice makes the master? Human-oriented interface & operation makes a **NATURAL MASTER.**

◎ E-Map

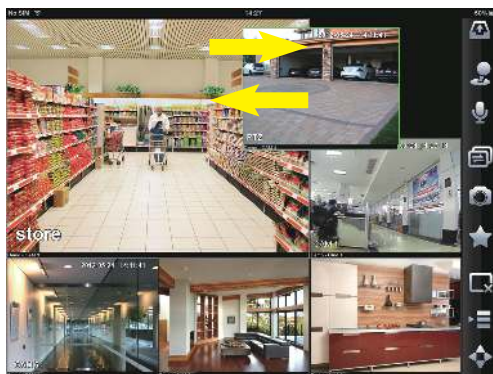

Self-add cameras onto the imported E-map to easy get your target video & realize easy device management.

◎ Pic Channel function

More intuitive and memorable device list (Pic Channel function) makes operation and management more convenient and efficient.

◎ Window Switch Function

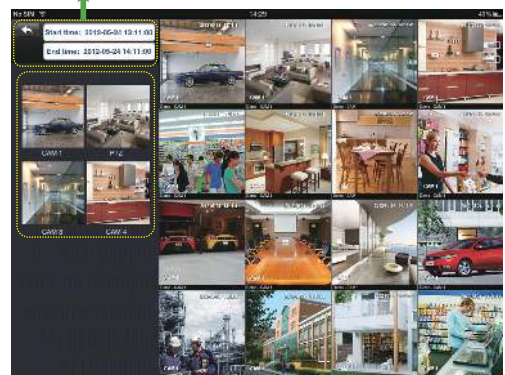

Support window slide function to easy switch the window positions at your will.

◎ Preview & Playback

▲ Preview

Search Engine

▲ Playback - Search Engine

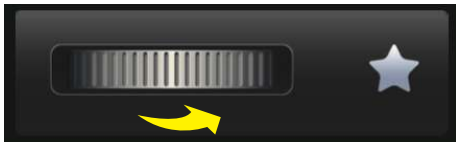

- Max. support 16 channel preview & Playback
- Support 1/4/6/9/16 display modes

▲ Playback - Time Bar

Support Playback for different channels, devices (IPCs, domes) and period of time. That the time bar offers three selectable playback units (5 min, 30 min and 60 min) makes search more accurate and timesaving.

Task Wheel Function

Just a simple tap to add & edit "favorite group"; and a little slide to get your "favorite group".

Snapshot

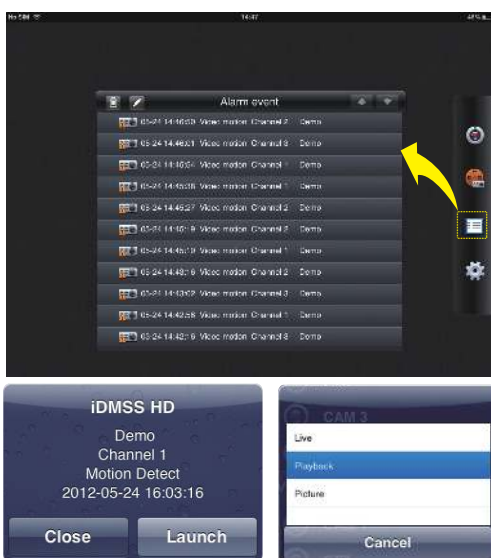

Snapshot: Support **three** snapshot modes (1x, 3x, 5x continuous shooting). With further iPad function, the snapshot can be shared, emailed, copied or directly printed.

Password Protection

Password protection secures your privacy.

Push Video

Alarm Push with attached **video clip** enables you to acquire instant messages for what happened in your monitoring environment at earliest; and you won't miss any alarm messages with **Alarm Event history list** on the right bottom of the icon list.

PTZ & EPTZ

Support **PTZ dome control** (includes preset function) and regular zoom in/out, iris adjusting and etc.; easy gestures control to realize **EPTZ function** (for non-dome cameras).

Synchronization

Support synchronization of **channel names** between the device and software. (The software will auto sync with the device name that modified locally or via client end)

Talk Function:

Leave your 1% absence to talk and save the other 99% to the "present moment". Bidirectional talk realizes instant remote verbal communications, thus free your extra worry while working or enjoying treasurable vacation time.

Remote Control

A cost-effective way to get your life safer, smarter and interesting. Relay Function supports remote control over alarms or home appliances, such as siren, air conditioner and etc.

DMSS

- Push Alarm, Playback, Task wheel
- Finger Gesture, Windows Slide, PTZ&EPTZ, Bidirectional Talk and etc.
- Support multi-language (Chinese, English, Spanish, Portuguese, French, Polish, German, Japanese, Italian, Russian and etc.)
